

ORGANIZED BY

12TH EDITION OF THE INTERNATIONAL HBV CURE ANRS MIE WORKSHOP

June 11th 2025
Paris, France

PROGRAM

9:30 *Welcome Coffee*

9:55 Welcome & Introduction

Fabien Zoulim and Yazdan Yazdanpanah

10:00 The viral genome reservoir

Chairs: Barbara Testoni and Christine Neuveut

Retroviral DNA Integration and Chromatin Dynamics

Vincent Parissi, Bordeaux

3D genome in the context of HBV infection

João Rodrigo Diogo Dias, Montpellier

Tracking HBV morphogenesis pathway by cell imaging

Carla Vanessa Sarabia Vega, Tours

11:10 The antiviral immune responses

Chairs: H    ne Strick-Marchand and Massimo Levrero

Heterogeneity and plasticity of T cell responses in chronic HBV infection.

Pierre Tonnerre, Paris

Dysfunctional T cells and co-signaling receptor modulation

Matteo Iannaccone, Milan

12:00 *Lunch break*

13:15 Assessment of the liver reservoir

Chairs: Vincent Thibault and Patrick Soussan

Tracking the infected hepatocytes in the liver

Armando Andres Roca Suarez, Lyon

Assessing the immune responses in the liver

Adam Gehring, Toronto

HBV spatial transcriptomic in patients with CHB

Xiaoqi Yu, Shanghai

14:30 Young investigators session

Chairs: Eloi Verrier and Jean-Michel Pawlotsky

Flash presentations

Hijacking of host PDZ proteins by hepatitis B virus during the infection

Lina Boumediene, Paris

Characterization of the interaction between Hepatitis B virus core protein and preS envelope protein

Carolanne van Belleghem, Lyon

Indeterminate phase/grey zone of chronic hepatitis B: liver microenvironment and gene expression profiles

Maria Stella Franzè, Paris

Determinants of health-related quality of life in patients with chronic hepatitis B in the French HEPATHER cohort

Clotilde Lepers, Lille

15:05 Late Breaker Presentation

HBV immunotherapy with a cGAS mRNA

Nicolas Manel, Paris

15:30 Coffee break

15:50 Hepatitis Delta

Chairs: Anders Boyd and David Durantel

Kinetics of HDV during antiviral therapy

Jeremie Guedj, Paris

The French hepatitis Delta cohort: long-term virologic responses to Bulevirtide

Hélène Fontaine, Paris

Update of clinical trials in CHD

Pietro Lampertico, Milan

16:55 HBV cure in the clinic

Chairs: Marc Bourlière and Vincent Leroy

The French Hepatitis B cohort: a focus on the grey zone patients

Lucia Parlati, Paris

Immune revigoration and stimulation: promises on the horizon?

Mala Maini, London

How to optimize antisense oligonucleotide and siRNA-based treatments?

Sabela Lens, Barcelona

Prevention from mother-child transmission

Gonzague Jourdain, Paris / Chang Mai, Thailand

18:30 Conclusions and Farewell

Fabien Zoulim
